

## News - Why the Children Love it

This is a collection of 'reviews' from students about why they like to attend classes at Morris Allen Study Centres. What better way to understand a school, than comments from the students themselves!

I like Morris Allen Study Centres because they provide a wide range of books and all of them are so interesting that I can't put them down! Here I can make a lot of friends and the teachers are friendly and speak fluent English. There are games that rack our brains.

After joining the Centre, I have more confidence in myself now. I put in more effort in doing my work and perfecting it. Morris Allen Study Centres have helped me in my weaker areas like comprehension, cloze passage and editing exercises. I enjoy the writing and drama exercises we do in class

- Sebastian Kheng, P6

I have learned much from the Centre, be it comprehension, composition, listening or creative thinking. Sad to say, but I enjoyed the Centre English lessons more than those provided by my school.
